Please state why:

I liked the DNA replication although I thought it was a bit advanced for pre-ECSS.

9) If you found any bugs or issues with the game, please record exactly what happened here:

- when you go to the last robot on the tutorial it says that your E.M field will "power" and then stops the sentence makes no sense.
- when you jump of a gap you can fall through the blocks if you hit the arrow that sends you towards the blocks you jumped from.

Once completed please place the form face down on the teacher's desk. Thank you for your time.
